

Homi Bhabha National Institute

An aided institution of the Department of Atomic Energy and a deemed to be university under section 3 of the UGC Act.

HBNI Colloquium

IPR ENABLED PRODUCTIVE INNOVATIONS

THURSDAY

14 OCTOBER, 2021

START AT

04:30 PM

Prof. (Dr) Prabuddha Ganguli

CEO, Vision-IPR

Advisor and Adjunct Faculty, IIT Jodhpur

Co-Principal Investigator, National Digital

Library of India, IIT Kharagpur

Emeritus Professor, Vishwakarma

University, Pune

Honorary Visiting Professor, JNU,

New Delhi

Synopsis of HBNI Colloquium

Human mind is endowed with the ability to dynamically hybridize thoughts, ingenuity, creativity with purposeful goal orientation in a creative value chain. The process of research churns nucleated ideas with known knowledge in our thought space. This turmoil results in the redissolution of ideas in our thought-bowl, with some progressing to varying degrees of growth, and a few crystallizing into tangibles and marketable entities through extensive experimentation. Our "learning minds" perceive, observe, think, strategise and act in innovative consonance leading to convergence of knowledge providing new solutions to problems of today, and while laying the foundations for a better tomorrow.

Effective knowledge sharing and transfer between individuals, communities, organizations and nations are generally mediated with acknowledgement of the ownership of the created knowledge and associated transactions on the platform of Intellectual Property Rights (IPR).

The presentation will examine the process of IPR Enabled Productive Innovations in a few selected disciplines such as biotechnology, materials science including nanotechnology, communications technology, and engineering.

The presentation will further cite frameworks in which knowledge development, transfer and commercialisation have been seeded by IPR, raise questions on the pros and cons of the IPR system, and debate its implications in the overall context of Research and Societal Knowledge Management.
